NO.1
**APPLIANCE
BRAND**

DEFY COLLECTION 2025/2026
PRODUCT CATALOGUE

ABOUT US

Pioneering the South African landscape with the first-ever electric stove, Defy won awards for its innovation and technology in 1932, and since then has evolved to be the country's leading home appliance brand. With more than 2500 employees, 80% of the product range is sold into Africa with at least one dealer in each of the 34 Sub-Saharan countries.

Innovation

Innovation is at the heart of everything we do. Our team of experts is dedicated to staying ahead of the curve, ensuring that our products incorporate features & functionalities to meet your evolving needs.

Customer Satisfaction

We are dedicated to exceptional customer satisfaction with 18 service centres nationally. From pre-sales inquiries to after-sales support, our knowledgeable and friendly team are just one call away. We value feedback & continuously work towards improvement.

Our Quality

Our high-quality home appliances are crafted for durability, ensuring our consumers can focus on what truly matters.
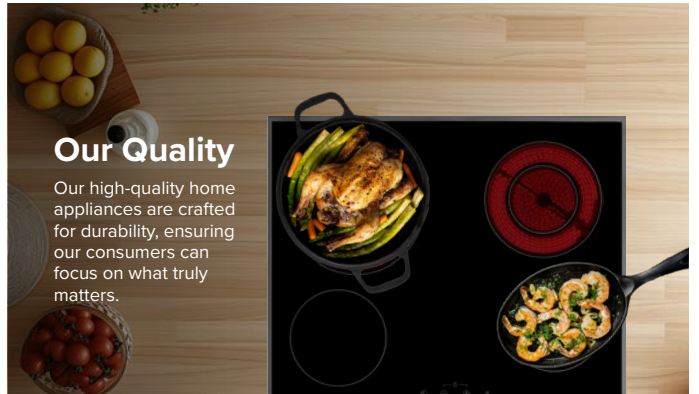

Sustainability

We are committed to sustainable practices & strive to minimize our ecological footprint. Through energy-efficient designs & eco-friendly manufacturing processes, we aim to contribute to a greener & more sustainable future.
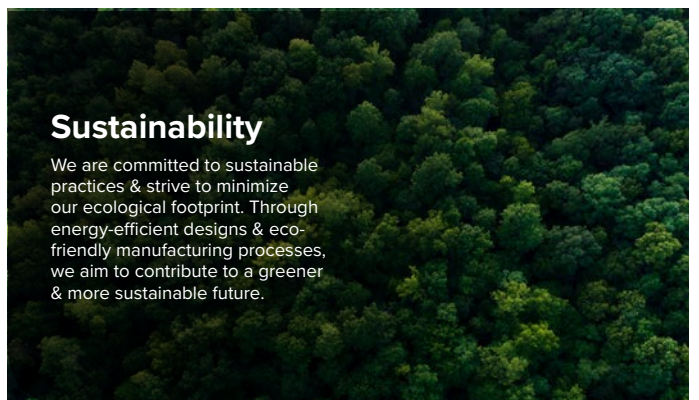

Our People

As a proudly South African company with local manufacturing in two factories in Durban & Ezakheni, Defy employs over 2000 South Africans. Defy is aslo deeply rooted in the local community through various intiatives and partnerships.

COOKING RANGE

Master Your Culinary Domain

The Defy Cooking Range blends sleek design with advanced functionality, redefining culinary experiences in the modern kitchen. Boasting a range of innovative features, including precision temperature control and efficient energy consumption, it empowers chefs of all levels to unleash their creativity. Whether you're a seasoned chef or an aspiring home cook, the Defy Cooking Range offers versatility and reliability, ensuring each dish is cooked to perfection. With its classy interface and durable construction, this range is a cornerstone of any contemporary kitchen, where style meets substance in every culinary endeavour.

THERMOFAN+™ TECHNOLOGY

Defy's ThermoFan+ Technology is your secret weapon for perfect meals, every time. This innovative technology uses advanced heat circulation to deliver consistent, even heat throughout your oven. The result? Juicy roasts, perfectly browned vegetables, and crusty bread that will have you smiling from ear to ear. Plus, **ThermoFan+** is energy-efficient and cooks food faster, saving you time and money in the kitchen!

AIRFIRE

Defy's AirFire Technology allows you to cook wholesome food with reduced fats, preserving nutrients in large quantities. Unlike any other Air fryer on the market, our Gemini oven offers a large capacity, enabling the whole family to savour a healthy, oil-free meal using the AirFire function.

Made possible through a newly designed, bespoke stainless-steel basket that ensures optimum heat flow for cooking perfection. Combining 3D cooking and ThermoFan+, our new basket design generates radiant heat from the heating elements, circulating at high speed throughout the oven, resulting in a perfect crisp, golden brown finish for your favourite foods in just a few minutes.

3D COOKING

Defy understands the importance of convenience and efficiency in the kitchen. Our 3D Cooking function utilizes upper heating, lower heating, and fan heating to ensure that your meal is cooked evenly and quickly.

With the ability to cook with just a single tray, this feature harnesses all 3 elements to speed up cooking time and guarantee that your food is cooked evenly and faster than ever before. The result? Perfectly cooked dishes in record time, with less hassle for you!

STEAM ASSISTED CLEANING

Say goodbye to tough oven cleaning with our Steam Assisted Cleaning feature. Harnessing the power of hot steam, it effortlessly softens and loosens hardened grime, making cleaning a breeze and keeping your oven in pristine condition without the hassle.

STEAM ASSISTED COOKING

Discover a whole new world of baking with Defy's Steam Assisted Cooking feature. By infusing your food with steam, you can achieve remarkable results that will transform your baking endeavours. Experience crisper crusts, moist crumbs, and fuller loaves of bread, culminating in a truly delightful cooking experience.

CATALYTIC CLEANING

Ovens with catalytic walls feature a light matte and porous surface that is designed for your convenience. You won't need to worry about cleaning these walls, as their unique porous structure effortlessly absorbs oil, making maintenance a breeze.

TECHNOLOGICAL SOLUTIONS

MULTIFUNCTION OVEN
The multifunction core design has six options to make life easier in the kitchen, giving you the ultimate convenience.

FAN-ASSISTED STATIC BAKE
The fan-assisted cooking with heat from both top and bottom heating elements provide quick and homogeneous results, making it an ideal Programmer for baking biscuits and cookies.

HALO-VIEW
Halogen lamp illumination inside the oven cavity ensures a brighter cooking experience and better view of the inner cavity, eliminating over-cooking when baking or grilling.

THERMOFAN+
Using both baking trays at the same time, multiple dishes can be cooked simultaneously without any flavour or aroma transfer. Doors may be conveniently opened at anytime to inspect food without any risk.

STATIC BAKE
The top and bottom elements are used for traditional baking and roasting – without the use of a fan.

FEAST MASTER
Prepare large meals effortlessly or cook more dishes at the same time with a spacious interior ideal for bulk cooking and family feasts.

AIRFIRE TECHNOLOGY
Cooks wholesome food with reduced fats, preserving nutrients in large quantities.

3D COOKING
Utilizes upper heating, lower heating, and fan heating to ensure that your meal is cooked evenly and quickly.

STEAM ASSISTED COOKING
An incorporation of steam and heat to provide succulent cooking results.

STEAM ASSISTED CLEANING
The power of hot steam, softens and loosens stubborn grime, for better cleaning.

REMOVABLE GLASS DOOR
Accessible inner glass door for easy cleaning.

SIDE RACKS
5 Multi level cooking racks.

CATALYTIC CLEANING
Loosens hardened grime for easy cleaning

TELESCOPIC SHELF EXTENSION
Provides smooth and convenient access to dishes. Effortlessly removing hot trays, ease and safety in handling.

SAFETY & CONVENIENCE SOLUTIONS

ELECTRONIC IGNITION
Control knob is held down & turned to the left (counter-clockwise) during this time the ignition button is pushed & held for approximately 10 seconds, whereupon the gas is lit.

FLAME FAILURE SAFETY DEVICE
As a safety feature, should the flame extinguish for whatever reason, the flow of gas to the burner will automatically be terminated

COOL-TOUCH OVEN DOOR
As hot air rises and escapes through slots at the top of the oven, it is replaced with cool air from the bottom – the constant flow of air keeps the glass door cool. Additionally, an inner and outer glass prevents excessive heat on the door surface.

INVISA-BAKE
A concealed bake element creates more space in the oven and improves the interior outlook. This adds to the longevity of the element which is protected from oven conditions and spillage.

STATIC GRILL
Ideal Programme for grilling steaks, sausage, bacon or fish.

TURBO GRILL
Reduces moisture loss when grilling thick pieces of meat and fish, with both fan & grilling elements used for fast and even cooking

TOUCH CONTROL
The sleek electronic display offers easy touch control settings, giving you a hob that combines the latest technology and style.

DUAL ZONE COOKING
An extendable cooking zone that allows you the convenience of using either a small pot or a large one.

TRIPLE ZONE COOKING
An extendable cooking zone that allows you the convenience of using either a small, medium or large pot.

HOT SURFACE INDICATOR LIGHT
For your safety, a light that warns you if the surface is hot.

WOK BURNER
Wok burners have a Double Gas Flame for a more effective and powerful cooking experience

PRECISE FLAME
9 Power levels for precise heating.

REMOVABLE GLASS DOOR
Accessible inner glass door for easy cleaning.

ENVIRONMENTAL SOLUTIONS

ENERGY EFFICIENCY
Lower your energy consumption, reducing electricity costs and benefiting the environment.

COOLING RANGE

Elevate your Kitchen

Defy's Fridge range combines innovation and elegance to redefine kitchen essentials. Designed to elevate both form and function, each fridge in our collection embodies the perfect harmony of style and practicality. From sleek stainless steel finishes to intuitive storage solutions, our fridges are meticulously crafted to cater to your every need. Whether you're a culinary enthusiast seeking precise temperature control or a design aficionado aiming to enhance your kitchen aesthetic, our fridge range promises to exceed your expectations. Embrace the future of refrigeration with our cutting-edge technologies and timeless designs, and transform your kitchen into a haven of freshness and sophistication.

NATURELIGHT
TECHNOLOGY™

NatureLight™ Technology is an innovative three colour light technology that mimics the sun's natural photosynthesis cycle inside the fridge's crisper drawer to preserve the vitamins found in your fruits and vegetables for longer. By periodic and homogenous application of the three lights (blue, green and red), NatureLight™, in turn, provides a natural living environment that will stimulate and maintain high levels of vitamin A and C. Inspired by nature, powered by light.

DUAL COOLING
2 SEPARATE COOLING SYSTEMS

It's difficult to keep fish in the freezer together with a lovely cake in the fridge without their odours mixing.

Dual Cooling's separate cooling systems for each compartment maintain ideal air flow and optimal temperatures with a high level of humidity in both the freezer and the fridge. The result is your food stays fresh for longer with no frost build-up or odour transfer.

ENERGY EFFICIENCY

A++ Energy efficient fridges consume 20% less energy than the lower energy class fridges, helping to reduce electricity costs, benefit the environment and save money on your power bill in the long run.

Energy ratings for fridges take into account factors such as the size of the fridge, the type of cooling system used, and any additional features that may impact energy consumption.

FROST FREE

The struggle of refrigeration ownership has been eliminated by Defy's Frost Free technology. Without the accumulation of ice inside the freezer, the fridge freezer combination will work more effectively, cutting down electricity costs and enhancing produce freshness.

MULTIMODE

With the MultiMode Function, your chest freezer can easily switch between a fridge, chiller, or freezer, giving you flexible storage options and ensuring your food stays at the perfect temperature, from +10°C to -24°C, to suit your needs.
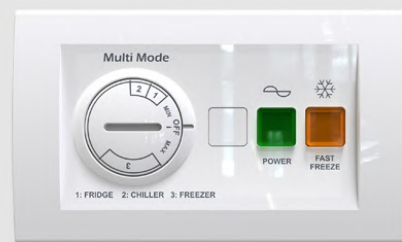

CHILL IN TECHNOLOGY

With Chill In Technology, you can confidently store your food knowing that even during extended power cuts, your items will stay safely frozen for up to 140 hours. This advanced feature not only provides peace of mind but also significantly reduces food waste, saving you money and ensuring that your groceries remain fresh and preserved longer. Whether it's a short outage or an unexpected emergency, you can trust your freezer to protect your food investment.

TECHNOLOGICAL SOLUTIONS

SOLAR OFF GRID
Defy's Solar-Off Grid refrigeration range seamlessly integrates with solar panels, ensuring reliable cooling even during load shedding and power outages.

NATURELIGHT TECHNOLOGY
New Technology, that prolongs the vitamin content in your fruit and vegetables. Innovative three colour technology mimics the suns cycle to prolong freshness.

DUAL COOLING TECHNOLOGY
This new generation technology provides 2x faster cooling thanks to 2 seperate fans in the fridge and freezer. Advanced air flow prolongs freshness by maintaining humidity levels and ensuring no odour mixing between compartments.

FROST FREE
A Frost Free system eliminates the need for Manual Defrosting. It also helps to cut down on electricity costs. When ice accumulates inside the freezer, it decreases the effectiveness of the unit and uses more energy to maintain the right temperature.

SPECIAL DAIRY COMPARTMENT
A chiller with a temperature at 0°C is ideal for storing meat, fish and dairy products. Reduced temperature fluctuations are ideal to maintain the integrity of food flavour.

TOUCH CONTROL ELECTRONIC DISPLAY
The sleek electronic display offers easy touch control settings, giving you a fridge that combines the latest technology and style.

VACATION MODE FOR ENERGY SAVING
This extra energy-saving mode keeps the freezer working as normal and allows the fridge compartment to go on vacation when you do.

FAST FREEZE
A special setting specifically for fresh meat and fish storage, in which they are rapidly frozen to ensure their cell structures don't deteriorate - keeping nutritional value and flavours intact.

WATER DISPENSER
Experience the ultimate convenience of pure, clean water without compromising on taste. Defy's sleek, compact Water Dispenser fits perfectly into any space, delivering refreshing cold water at the touch of a button.

LED ILLUMINATION
Defy's LED lighting illuminates your fresh produce, making it easy to find what you need. Enjoy energy-efficient, long-lasting light that creates a brighter, fresher fridge experience.

SAFETY GLASS SHELVES
Glass Shelves that are safer to handle.

HYGIENE & FRESHNESS SOLUTIONS

ACTIVE IONISER
The ioniser neutralise's bacteria, viruses and particles by using ions to create fresh, antibacterial air inside the fridge – keeping food fresh for longer.

ODOUR FILTER
By filtering the circulated cool air, bacteria are eliminated preventing unwanted odours.

ANTIBACTERIAL DOOR SEAL
Antibacterial Door Seals prevent the accumulation of bacteria, improving hygiene and shielding both the fridge and freezer compartments.

CHEST FREEZER SOLUTIONS

CHILL IN TECHNOLOGY
Keep food frozen for at least 140 HRS during power cuts.

MULTIMODE FUNCTION
MultiMode is a feature that allows your chest freezer to convert to either a fridge, chiller or freezer for maximum storage capacity from +10 (degrees Celsius) to -24 (degrees celsius).

INTEGRATED LOCK
Keep your food secure with the built-in lock on our chest freezers, providing peace of mind and added safety for your stored items.

ALUMINIUM INTERIOR
Designed to withstand daily wear and tear while providing optimal insulation to keep your food at the perfect temperature. Aluminium interior prevents the spread of odours.

ENVIRONMENTAL SOLUTIONS

ENERGY EFFICIENCY
Lower your energy consumption, reducing electricity costs and benefiting the environment.

DEFY

ART OF LIVING

SOLAR OFF-GRID

WHEN THE SUN AND ELECTRICITY TAKE A BREAK, IT'S ALWAYS ON.

PIONEERING TECHNOLOGY

1st

of its kind

DEFY SOLAR OFF-GRID FRIDGES FUNCTION COMPLETELY OFF-GRID WITH BATTERY & SOLAR PANEL.

Experience uninterrupted freshness with Defy's revolutionary Solar Off-Grid Technology, a necessity in light of frequent power outages. Benefit from being fully off-grid, saving you money while ensuring your food is always fresh. With its continuous operation, even during outages, you can enjoy peace of mind - 24/7.
OFF-GRID

ALWAYS ON FRESHNESS

BATTERY + SOLAR PANEL COMPATIBLE

SMART INVERTER COMPRESSOR maximizes energy efficiency, resulting in extended battery usage.
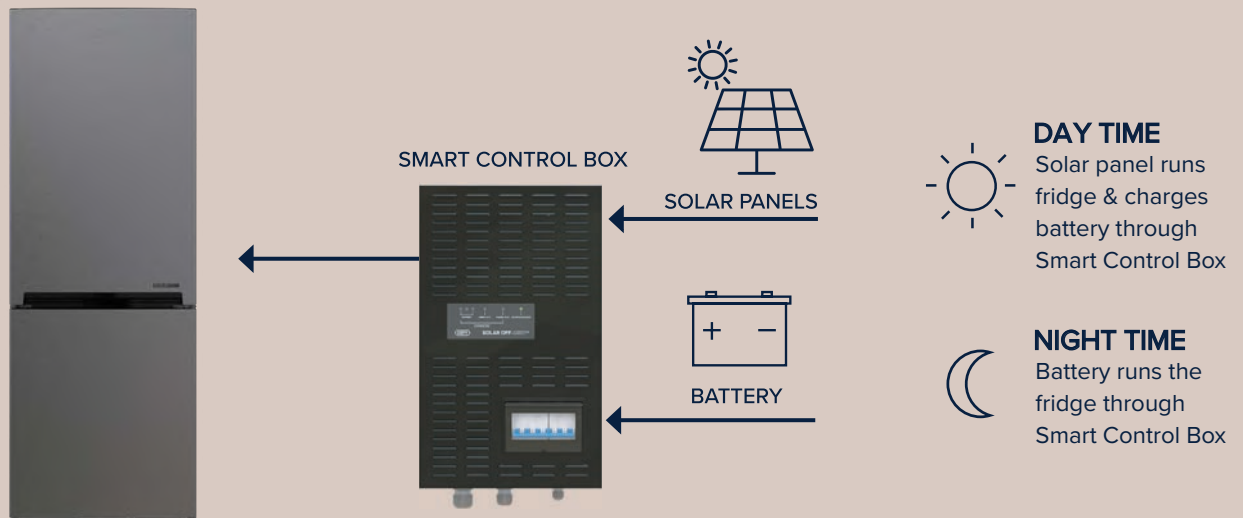

ENDURA-CHILL TECHNOLOGY uses special insulation material which extends solar panel lifespan.
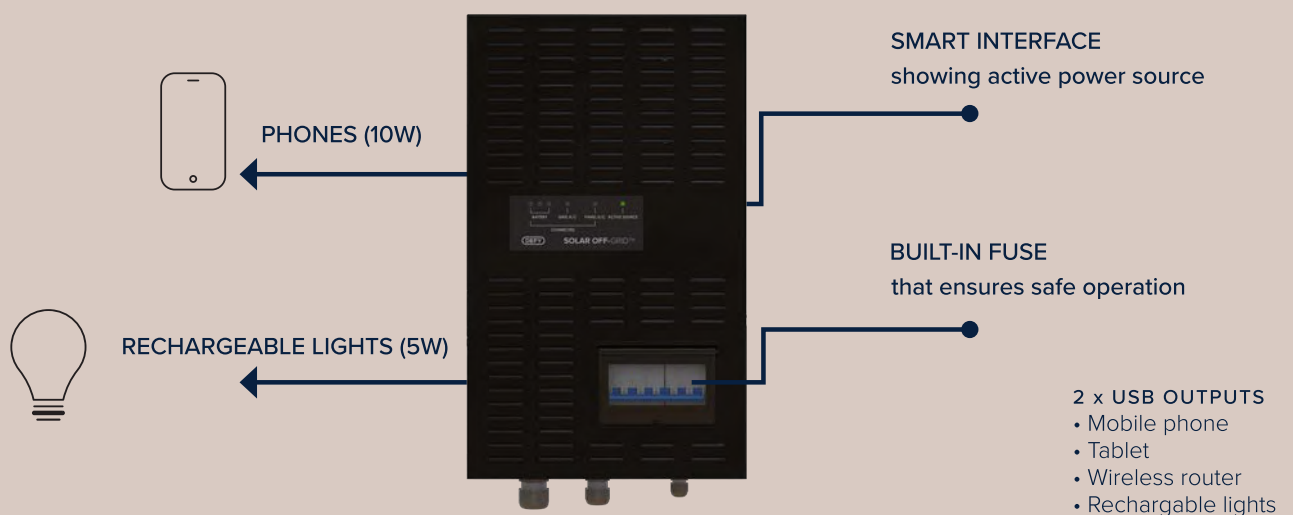

AN OPTION TO RUN HYBRID

The DEFY Solar Off-Grid fridge has the ability to run as a hybrid model: During the day: energy is supplied instantly through the solar panels, a battery is not required in this use case.

During overcast conditions, load shedding, and at night: the unit runs off the electrical grid. A grid connection is provided with product.

HOW SOLAR OFF-GRID WORKS

SMART CONTROL BOX

SOLAR PANELS

BATTERY

DAY TIME
Solar panel runs
fridge & charges
battery through

CLEANING RANGE

Experience Superior Laundry Care with Defy's Laundry Range!

Transform your laundry routine with our cutting-edge laundry appliances that combine advanced technology with exceptional performance. Designed to handle everything from delicate fabrics to bulky loads, our washers deliver thorough cleaning while preserving garment quality. Pair it with our efficient dryers featuring sensor drying technology for perfectly dried clothes every time. Simplify your life with Defy's laundry solutions that promise reliability, efficiency, and unmatched care for your clothes.

prewash

afterwash

Lifts up
the dirt

Softens &
reduces
creases
STEAMCURE™ TECHNOLOGY

Effortlessly keeps your clothes in tip-top shape. This technology ensures a better cleaning and washing performance with additional benefits, by using steam that rises from the bottom of the drum. When steam is distributed into the drum at the beginning of the Program, it softens up dirt, making it easier to remove. When using it at the end of the Program, it makes laundry softer and reduces creasing on your clothes, delivering ideal results.

10 YEAR WARRANTY
PROSMART INVERTER MOTOR
T's & C's apply.
www.defy.co.za

PRO SMART INVERTER MOTOR

Defy has cleverly created technology that caters for multi-demands. Defy ProSmart™ Inverter Motor technology offers energy efficiency for your washing machine up to A+++ (-10%)*, keeping your electricity bills down.

It also keeps noise down too thanks to a variable, (frictionless) motor speed that helps you to set the drum rotation to suit your clothes. Adjusted drum rotation lets the clothes move more easily and quietly in the drum, so your washing won't disturb anyone. Defy's ProSmart Inverter Motor washing machines have a 10 year motor warranty.

ENERGY EFFICIENCY

Save more on your electricity bills and help the environment with Defy's energy-efficient appliances! With 10% better efficiency than the standard A+++ rating, you'll enjoy lower energy costs and a smaller carbon footprint.

Make a smart choice for both your wallet and the planet!
AQUAWAVE TECHNOLOGY

Our unique Drum Pattern and gentle paddles create a soothing wave-like motion that carefully handles your clothes, ensuring they're mixed thoroughly and treated with the utmost care. This innovative design not only pampers your garments but also enhances drying performance, so you get perfectly dried laundry every time. Enjoy the perfect balance of gentle care and powerful results!

HYGIENE +

This special Program features intensive wash and extra rinse cycles to provide a deep clean for laundry that needs extra care. Perfect for babies and those with allergies, it ensures your clothes come out fresh and gentle every time.

WOOLMARK TECHNOLOGY

Enjoy flawless care for your woolens with our Woolmark™ approved wool Program! Our washer offers precise water and drum control, gently tumbling your woolens throughout the cycle. The high-speed spin at the end ensures a perfect finish, leaving your woolens looking and feeling great, wash after wash.

TECHNOLOGICAL SOLUTIONS

STEAMCURE™ TECHNOLOGY
Uses steam to clean and reduce creased clothes every time.

FOUNTAIN WASH TECHNOLOGY
This advanced feature treats every fiber of your clothing to a thorough cleanse, effortlessly lifting even the toughest stains. With its even distribution of water and detergent, you can trust that every wash will be thorough and effective.

PROSMART INVERTER MOTOR
Smarter and simpler components mean a more efficient motor with less vibration. Power is not wasted in friction, resulting in a quieter system with a longer lifespan.

AQUAFUSION TECHNOLOGY
In regular machines, nearly 25% of the detergent is lost through the drain before interacting with the laundry. The Defy AquaFusion Technology blocks the tub outlet to keep all the detergent inside the washing tub, giving you perfect cleaning results.

ADD GARMENT
Forgot something? No problem! With our Add Garment feature, you can easily pause your wash, toss in any item, and resume your cycle without losing much time.

AQUAWAVE TECHNOLOGY
A specially designed Drum Pattern, with the help of paddles , gently moves your laundry in a wave-like drum action.

WOOLMARK™ TECHNOLOGY
With Woolmark™ approved wool Programme, your washer has the precise water and drum control.

TANGLE FREE FINISH
Protects your laundry by preventing clothing from tangling.

ANTI-VIBRATION
Specially designed sidewall ensures reduced sound output by machine.

ADJUSTABLE WATER LEVEL
Multi Water level selection allows the amount of water to be selected based on the amount of laundry.

AIR TURBO DRYING
The Defy top loader machine has high spin speeds which offers more than enough force to eliminate most of the water from your load and shorten the drying time of your clothing.

FUZZY LOGIC
Fuzzy logic in Defy washing machine intelligently selects the optimal water level and adapts each wash cycle, ensuring effective cleaning while conserving water and energy.

EASY ACCESS FILTER
Defy's tumble dryer features user-friendly filters that can be easily accessed and cleaned for excellent drying performance.

ANTICREASE+
Automatically following the drying cycle, laundry is kept wrinkle-free inside the dryer for 2 hours while the machine continues to make gentle drum actions.

PULSATOR
The padded ribs of the pulsator results in improved soap agitation allowing for better washing results.

SAFETY & COMFORT SOLUTIONS

ELECTRONIC UNBALANCED LOAD CONTROL
Through an intelligent stabilising system, laundry is evenly distributed around the drum eliminating vibration and noise. Automatically adjusted spin speeds provide stability during spinning.

OVERFLOW SAFETY
Any variation from the correct water level in the drum is detected by a sensor and water automatically begins to drain when the level is exceeded.

AUTO RESTART
In the case of interference, such as a power cut, the auto restart feature allows the Programme to restart automatically when the power is back on.

ECO WASH 20ºC PROGRAMME
A super energy efficient Programme to wash a 3.5kg load of lightly soiled and unstained laundry at 20ºC, saving on electricity costs and benefiting the environment.

ECO WASH 40ºC PROGRAMME
A Programme offering the maximum energy and water savings for normally soiled cotton and linen laundry in comparison to other cotton Programmes.

CHILD LOCK FUNCTION
This smart function locks the washing machine's controls, preventing accidental changes and ensuring a worry-free wash.

HYGIENE SOLUTIONS

PET HAIR REMOVAL
Through a specially developed function, pet hair is effortlessly removed from laundry. This function automatically adds pre-wash and additional rinse cycles to remove pet hair effectively, providing anti-allergy benefits.

HYGIENE +
An extra-hygienic Programme designed for babies with sensitive skin or people with allergies. Combined intensive wash and additional rinse cycles ensure thorough results on laundry that requires special care.

DRUM CLEAN
A maintenance Programme at 70ºC to provide better machine hygiene, cleaning the drum, detergent drawers, pipes and the tub.

TIME SAVING SOLUTIONS

TIME DELAY
Set your washing cycle to start when you need it to, with a maximum delay time of 24 hours.

MINI 14 PROGRAMME
14 minute express Programme for a 2kg lightly soiled and unstained laundry at a maximum of 30ºC.

ENVIRONMENTAL SOLUTIONS

ENERGY EFFICIENCY
Lower your energy consumption, reducing electricity costs and benefiting the environment.

DISHWASHER RANGE
Smarter Cleaning Starts Here: Explore Our Innovative Dishwashers

Discover the perfect blend of innovation and efficiency with our advanced dishwasher range. Designed to handle every culinary challenge, our sleek and stylish models ensure pristine dishes with each cycle. From customizable wash cycle options to eco-friendly features, Defy dishwashers promise reliability and performance, making them an essential addition to your modern home. Transform your dishwashing experience today and enjoy unparalleled cleanliness with every load.

CORNERWASH™ TECHNOLOGY

Our CornerWash Technology blasts away dirt from every nook and corner of your dishwasher. With specially designed spray arms, water, and detergent reach even the hardest-to-clean spots, leaving your dishes sparkling clean.

DEEP WASH

With three powerful jets that reach up to 30cm above the water, this feature delivers a thorough, intense clean. It's perfect for washing your largest and most stubborn items while using less water. Designed to handle your favorite, most-used dishes, it ensures they come out sparkling clean and ready for your next meal.
ENERGY EFFICIENCY

Save more on your electricity bills and help the environment with Defy's energy-efficient appliances! With 10% better efficiency than the standard A+++ rating, you'll enjoy lower energy costs and a smaller carbon footprint.

Make a smart choice for both your wallet and the planet!

AUTO DOOR

Once your washing cycle is complete, our Auto Door feature opens the door automatically to let fresh air in and help circulate it around your dishes. This helps to dry your dishes thoroughly and prevents any water stains, ensuring they come out spotless and gleaming every time.

HYPERCLEAN

Experience a new level of clean with our HyperClean feature! It creates a powerful cleaning zone that uses intense water pressure to deliver up to 5 times better performance than traditional dishwashers. Say goodbye to stubborn grime and hello to spotless dishes with less effort!
FAST+ FUNCTION

Get perfect results in less time with Defy's Fast+ Function. By increasing water and washing temperatures, you can shorten the duration of your wash by up to 70%. It's the ideal solution for those times when you need clean clothes quickly!

TECHNOLOGICAL SOLUTIONS

PROSMART INVERTER MOTOR
Smarter and simpler components mean a more efficient motor with less vibration. Power is not wasted in friction, resulting in a quieter system with a longer lifespan. Defy's ProSmart Inverter Motor washing machines have a 10 year motor warranty.

CORNERWASH TECHNOLOGY
Our CornerWash Technology blasts away dirt from every nook and corner of your dishwasher. With specially designed spray arms, water, and detergent reach even the hardest-to-clean spots, leaving your dishes sparkling clean.

ACTIVE FAN DRYING
A fan is used for air circulation not only to achieve perfect dryness but also to cool down dishes to normal temperature just as the Programme is over.

INTENSIVE WASH
Providing both powerful and gentle washing, this program is suitable for heavily soiled dishes, pots and pans. With a cleaning temperature of up to 70 degrees. Dirty dishes and kitchenware in the bottom basket are subjected to high water pressure whilst slightly dirty and delicate glassware in the top basket are washed at a lower water pressure.

AUTO PROGRAMME
To determine the appropriate wash cycle needed, dirt sensors automatically govern the cleanliness of the dishes first. Practical and economical, the auto Programme uses the minimum required amounts of water and electricity providing convenience and saving costs.

HYPERCLEAN TECHNOLOGY
Experience a new level of clean with our HyperClean feature! It creates a powerful cleaning zone that uses intense water pressure to deliver up to 5 times better performance than traditional dishwashers. Say goodbye to stubborn grime and hello to spotless dishes with less effort!

DEEP WASH
With three powerful jets that reach up to 30cm above the water, this feature delivers a thorough, intense clean. It's perfect for washing your largest and most stubborn items while using less water. Designed to handle your favourite, most-used dishes, it ensures they come out sparkling clean and ready for your next meal.

TIME SAVING SOLUTIONS

QUICK & DRY
Offering the convenience of speed and high quality washing, this Programme provides exceptional performance for not-so-dirty dishes in only 58 minutes.

FAST+ FUNCTION
Shorten the duration of the Program by up to 70% by increasing the water and washing temperature. Perfect results in less time, ideal for when you are in a hurry.

SAFETY & CONVENIENCE SOLUTIONS

SIDEWAY SLIDING CUTLERY BASKET
Effortlessly sliding left or right, the cutlery basket enables flexible loading of big kitchenware in the bottom basket.

PULL-OUT MULTIPURPOSE CUTLERY TRAY
A removable third pull-out tray is convenient for washing small espresso cups and cutlery.

HALF LOAD
A Half Load can be washed once this function is selected with the convenience of either or both baskets filled for an environmentally friendly wash.

XL CAPACITY
The 13 place setting dishwasher provides extra capacity for large families saving detergent, water and energy compared to a standard 12 place setting dishwasher.

XXL CAPACITY
The 15 place setting dishwasher provides extra capacity for large families saving detergent, water and energy compared to a standard 14 place setting dishwasher.

ROBUST SPRAY ARM
Powerful washing requires powerful equipment. Introducing the Robust Spray arm design which allows for a more efficient and powerful washing action.

ACROBAT SYSTEM
Being flexible and convenient system, the height of the top basket can be easily adjusted even when it's loaded, to provide extra space for the top or bottom basket.

ENVIRONMENTAL SOLUTIONS

ENERGY EFFICIENCY
Lower your energy consumption, reducing electricity costs and benefiting the environment.

SMALL DOMESTIC APPLIANCE RANGE

Small Appliances, Big Impact: Everyday Essentials for Your Kitchen

The Defy Small Domestic Appliances (SDA) Range offers a comprehensive selection of high-quality products designed to enhance every aspect of modern living. From the kitchen to the living room, this range includes powerful Air fryers, versatile Microwaves, efficient Kettles, stylish Toasters, Robust blenders, and practical hand mixers, all crafted for superior performance, modern aesthetics and convenience.

Beyond the kitchen, DEFY's range extends to everyday essentials like Heaters, Fans, and Steam Irons, ensuring comfort and efficiency throughout the home. Each product is engineered with modern features and sleek designs, providing both functionality and aesthetic appeal.

TECHNOLOGICAL SOLUTIONS

VARIABLE HEIGHT ADJUSTMENT
Easily adjust the height of the appliance to suit your needs, providing optimal comfort and convenience during use.

STAINLESS STEEL BLENDER LEG
Features a durable stainless steel blender leg, ensuring long-lasting performance and easy maintenance.

REMOTE CONTROL
Operate the appliance effortlessly from a distance with the included remote control, enhancing user convenience.

LED ILLUMINATION
Equipped with LED lighting for better visibility and a modern look, making it easier to use in low-light conditions.

360° ROTATABLE
Enjoy full flexibility with a 360-degree rotatable design, allowing easy access and use from any angle.

LEFT AND RIGHT SWING
The appliance features a left and right swing function, providing even coverage and enhanced performance.

PIANO BLACK FINISH
Sleek and stylish piano black finish adds a touch of elegance to your kitchen or living space.

ADJUSTABLE TEMPERATURE
Allows precise control over the Temperature Settings, ensuring optimal cooking or operation for a variety of tasks.

STAINLESS STEEL FINISH
Features a sleek and durable stainless steel finish, adding a modern and polished look to your appliance while ensuring long-lasting quality.

TOASTER HIGH LIFT FUNCTION
Includes a high lift function for safely retrieving smaller items from the toaster without burning your fingers.

GLASS FINISH
Features a high-quality glass material, combining durability with a clear view of contents.

5 BLADES
Comes with 5 sharp and efficient blades, designed for powerful and effective cutting or blending.

TIMER
A built-in timer allows you to set the exact duration for cooking or operation, ensuring perfect results every time.

STATIC GRILL
Whether you're grilling steaks, vegetables, or seafood, the grill function adds a smokey, charred flavour to your food, giving it a restaurant-quality taste!

AIRFRYER
Allows you to cook food with hot air, resulting in a crispy texture with less oil or fat compared to traditional frying.

HIGH POWER
Delivers high power for efficient and fast operation, making your tasks easier and quicker.

AIR PURIFIER FUNCTION
Includes an air purification function, ensuring a healthier environment by reducing pollutants and allergens.

AUTOMATIC SWITCH-OFF
Automatically turns off the appliance when the set time is reached or when not in use, enhancing safety and energy efficiency.

REHEAT, DEFROST
Multi-functionality with reheat and defrost settings, making it easy to warm up or thaw food quickly.

EASY CLEANING
Designed for easy cleaning, with components that are simple to disassemble and clean, saving you time and effort.

AUTO SHUT OFF
Safety feature that automatically shuts off the appliance after a certain period of inactivity, preventing overheating.

PRESET MENUS
Offers pre-set menus and programmes for a variety of dishes, taking the guesswork out of cooking with one-touch convenience.

TOUCH SCREEN CONTROL PANEL
Modern touch screen control panel provides intuitive and easy operation, enhancing the user experience.

MANUAL CONTROL
Offers precise control over appliance settings, allowing you to customize your appliance's performance to your specific needs and preferences.

WATTAGE
The amount of electrical power the appliance consumes when in use.

STAINLESS STEEL BLADES
Equipped with stainless steel blades, providing strength, longevity, and superior cutting performance.

EXPRESS COOK FUNCTION
An express cook function allows you to prepare meals quickly, perfect for busy lifestyles.

CONCEALED HEATING ELEMENT
Features a concealed heating element for safer operation and easier cleaning, preventing accidental burns.

CHILD LOCK FUNCTION
Built-in Child Lock ensures safety by preventing accidental operation by children, giving you peace of mind.

RETRACTABLE CABLE STORAGE
Keeps cords organized and out of sight, preventing tripping hazards and reducing clutter around your appliance.

EXTRA LONG POWER CORD LENGTH
Features a concealed heating element for safer operation and easier cleaning, preventing accidental burns.

CONVECTION COOKING
Convection cooking circulates hot air around food, resulting in quicker cooking times, a crispy exterior, and even browning.

Fast Food Done Healthy.
Defy Air Fryers for Healthier, Tastier Meals

Redefine healthy eating and culinary convenience with our state-of-the-art Airfryers. Our innovative technology circulates hot air for healthier fried favourites, from golden French fries to juicy wings, with little to no oil. Plus, the easy-to-clean design ensures less time scrubbing and more time indulging. It's guilt-free flavour, made easy.

20L White Solo Microwave

FEATURES
- Cavity Volume: 20L
- Solo Microwave
- Manual Control
- 6 Power Level
- 700W Power Output
- Cooking End Signal
- Interior Cavity: White Painted
- White Colour Finish
- Normal Glass Door
- Voltage: 220-240V~ 50-60Hz

DIMENSIONS
- Product (W x H x D): 495 x 424 X 290mm
- Pack Size: 1 Unit per carton

700W

MOH 2330 BL
30L Mini Oven

FEATURES
- 30L Oven Capacity
- 2 Hotplates (1000W & 800W)
- 3200W
- Selectable Functions (grill, bake & toast)
- Oven and hotplates can work simultaneously
- 4 Control Knobs
- 100-230°C Oven Temperature
- 1.2m Power Cord Length
- Voltage: 220-240V~ 50-60Hz

ACCESSORIES
- 1 x Bake tray
- 1 x Wire Rack

DIMENSIONS (W x H x D)
- Product: 385 x 308 X 507mm
- Pack Size: 1 Unit per carton

WK 4215 G
Grey Glow Kettle

FEATURES
- 1850-2200W
- 1.7 L capacity
- Dry boil protection
- Concealed heating element
- Automatic lid
- Heat Transfer System
- Voltage: 220-240V~ 50-60Hz

DIMENSIONS
- Product (W x H x D): 225 x 245 x 160mm
- Pack Size: 4 Units Per Carton

TA 4220 G
Grey Glow Toaster

FEATURES
- 800W
- 2 Slice Toaster
- 2 Short & wide slots (High lift function to easily remove your toast)
- 7 Manual levels for browning control settings
- Voltage: 220-240V~ 50-60Hz
- Removable crumb tray
- Defrost, reheat and cancel functions
- Cord storage

DIMENSIONS
- Product (W x H x D): 180 x 285 x 195mm
- Pack Size: 4 Units Per Carton

TB 6260 G
Grey Glow Table Blender

FEATURES
- 600W
- 1.5 L Plastic jug
- 2 speed settings
- Pulse function
- Stainless steel 4 blade system
- Lid and Jug Locking Mechanism
- Voltage: 220-240V~ 50-60Hz

DIMENSIONS
- Product (W x H x D): 170 x 400 x 212mm
- Pack Size: 2 Units Per Carton

WK 4216 B
Piano Black Glow Kettle

FEATURES
- 1850-2200W
- 1.7L capacity
- Cordless
- Concealed Heating element
- Dry Boil Protection
- 360° Rotatable
- Voltage: 220-240V~ 50-60Hz

DIMENSIONS
- Product (W x D x H): 225 x 245 x 160mm
- Pack Size: 4 Units Per Carton

- Defrost, reheat and cancel functions
- Cord storage

DIMENSIONS
- Product (W x D x H): 180 x 285 x 195mm
- Pack Size: 4 Units Per Carton

TB 6261 G
Piano Black Glow Table Blender

FEATURES
- 600W
- 1.5L Glass jug
- 2 speed settings
- Pulse function
- Stainless steel 4 blade system
- Lid and Jug Locking Mechanism
- Easy power cord storage
- Voltage: 220-240V~ 50-60Hz

DIMENSIONS
- Product (W x D x H): 212 x 170 x 400mm
- Pack Size: 2 Units Per Carton

DCM 630 G
Black Glow Filter Coffee Machine

FEATURES
- 900W
- Water tank with 1.25L capacity
- Voltage : 220-240V ~50-60Hz
- Black- silver glossy finish
- High quality glass jug with 10 cups
- Transparent water level indicator for easy water level checking
- Clean usage due to drip stop function
- Keep-warm function
- Auto shut off
- Permanent filter
- Measuring spoon for the exact dosage of ground coffee

DIMENSIONS
- Product (W x D x H): 200 x 295 x 340mm
- Pack Size: 4 Units Per Carton

HM 5041 G
Piano Black Glow Hand Mixer

FEATURES
- 425W
- Turbo function & 5 speed settings
- Eject button
- Beater & dough hook accessories
- Vertical storage
- Dishwasher safe accessories
- Voltage: 220-240V~ 50-60Hz

DIMENSION
- Product (W x D x H): 300 x 101 x 176mm
- Pack Size: 6 Units Per Carton

HB 3261 G
Piano Black Glow Hand Blender

FEATURES
- 600W
- Turbo function
- 2 speed function
- Stainless steel blade system
- Stainless steel blender leg
- Voltage: 220-240V~ 50-60Hz

DIMENSION
- Product (W x D x H):
  530 x 530 x 370mm
- Pack Size: 2 Units Per Carton

WK 5300 G
Tinted Glass Kettle

FEATURES
- 1850 – 2200W
- 1.7L capacity
- Tinted Glass & stainless-steel
- Cordless
- Concealed Heating element
- Dry Boil Protection
- 360° Rotatable
- Water Level Indicator
- Voltage: 220-240V~ 50-60Hz

DIMENSIONS
- Product (W x D x H): 210 x 150 x 249.5mm
- Pack Size: 4 Units Per Carton

1.7L | 2200 Watt | GLASS | 360°

WK 5100 JS
Stainless Steel Cordless Kettle

FEATURES
- 1850 – 2200W
- 1.7L capacity
- Stainless steel finish
- Cordless
- Concealed Heating element
- Dry Boil Protection
- 360° Rotatable
- Voltage: 220-240V~ 50-60Hz

DIMENSIONS
- Product (W x D x H): 220 x 150 x 232mm
- Pack Size: 4 Units Per Carton

1.7L | 2200 Watt | 90° | STAINLESS STEEL | 360°

SIS 6126 R
2600W Steam Station

FEATURES
- 2600W
- 6 Bar Pump Pressure
